Foreword to the German Edition	11
Foreword to the English Edition	13
Acknowledgements	15
PART 1 THE HISTORY AND SCIENCE OF OLIGODYNAMICS	
1 The History and Science of Oligodynamics	3
1.1 Introduction - An Outsider's View	3
1.2 "Of the Making of Books. . . ."	5
1.3 Meeting New Challenges	5
1.4 The Prevalence of Bacterial Infections	9
1.5 Historical Background to the Oligodynamic Effects of Silver and Copper	12
1.5.1 An Age-Old Treatment - Almost Forgotten, Now Rediscovered	12
1.5.2 Silver as a Prophylactic - Older Than Recorded History	13
1.6 And the Lunatic Fringe ?	15
1.7 Early Developments	15
1.8 Copper too has a Long Medical History	16
1.9 The Mechanism of Oligodynamic Action	16
1.10 Non-Metallic Biocidal Species & Surfaces	27
1.11 Toxicology of Silver and Copper	27
1.12 The Eco-Toxicity of Silver & Copper	29
1.13 Silver for Water Purification	30
1.13.1 Scale Formation	37
1.14 Silver-Copper Water Treatment - Scientific & Technological Summary	39

1.15	Mechanisms, Theories, Problems	40
1.15.1	Oligodynamic Effects on Surfaces	40
1.15.2	Problems in Study of Copper Alloys as Oligodynamic Surfaces	41
1.16	Atmospheric Corrosion of Copper Alloys	44
1.17	Kinetics & Mechanism	46
1.18	Theory & Mechanisms - Conclusions	48
PART 2 APPLICATIONS OF OLIGODYNAMICS IN MATERIALS		
2	Oligodynamic effects of silver & copper	53
2.1.1	General Comments and Basic Principles – Contaminated Surfaces	53
2.1.2	Options for Creating Oligodynamic Metal Surfaces	55
2.1.3	Silver Coating or Cladding	55
2.1.4	Which Coating Method?	59
2.1.5	Silver in Dispersed Form	60
2.1.6	Metals in Non-Metallic Form	60
2.1.7	Anodic Oxidising (Anodising)	61
2.1.8	Controlled Release	62
2.1.9	Alloys	63
2.1.10	The Corrosion Rate of Metals	63
2.1.11	“Driven Systems”	64
2.1.12	Freely Corroding Systems	64
2.1.13	Driven vs. Freely-Corroding Systems	66
2.1.14	Practical Measurements	67
2.1.15	Oligodynamic Metals in Atmospheric Environments	68
2.1.16	Oligodynamic Surfaces in Action	68
2.1.17	Silver Dispersions in Stainless Steel	75
2.1.18	Silver on and In Plastics	78
3	Nano-Silver Particles in Gels, Paints & Textiles	83
3.1	General Comments	83
3.2	Silver-loaded resins for dental applications	89
3.3	Silver-Containing Ceramics and Glazes	90
3.4	Silver in Textiles or Fabrics	96
3.4.1	Metallised Textiles and Fibres	98

CONTENTS

vii

4	Conclusions and Summary	107
4.1	Prospects for the Future	109
5	The CD-ROM	113
